LED motion sensor led strip light

Competitive Price 50M Mini Bed Motion Sensor Non-Waterproof 2835 Smd Led Strip Light DC12V COHS Certification.

Brand Name: ALLIGHT

Light Source: 2835 SMD LED

Emitting Color: White

Type: Flex LED Strips, 60 LED/Meter

Lamp Luminous Flux(lm): 7-9lm/led

Working Temperature(°C): -35 - 50

Current (Amps/m): 1.2

Input Voltage(V): 12V/24V

CRI (Ra>): 80

Early LEDs were often used as indicator lamps for electronic devices, replacing small incandescent bulbs. They were soon packaged into numeric readouts in the form of seven segment displays and were commonly seen in digital clocks. Recent developments have produced LEDs suitable for environmental and task lighting. LEDs have led to new

displays and sensors, while their high switching rates are useful in advanced communications technology.

ZHIIDNG Electronics is the manufacturer of LED tape lights and LED strip lights that offer energy efficient, stylish and modern solutions to cove, under-cabinet, display, and other accent lighting applications. LED ribbon is flexible, field-cutable, and UL Listed. Our long-life LED tape and strip lights are offered with a strong adhesive backing that is easily mounted on most surfaces and is offered in your choice of LED density, brightness, and color temperature, along with color-changing and waterproof capabilities. Our LED tape and LED strip lights are certified in multiple categories for all residential and commercial applications.

Product Details

High Quality SMD LED Chips:

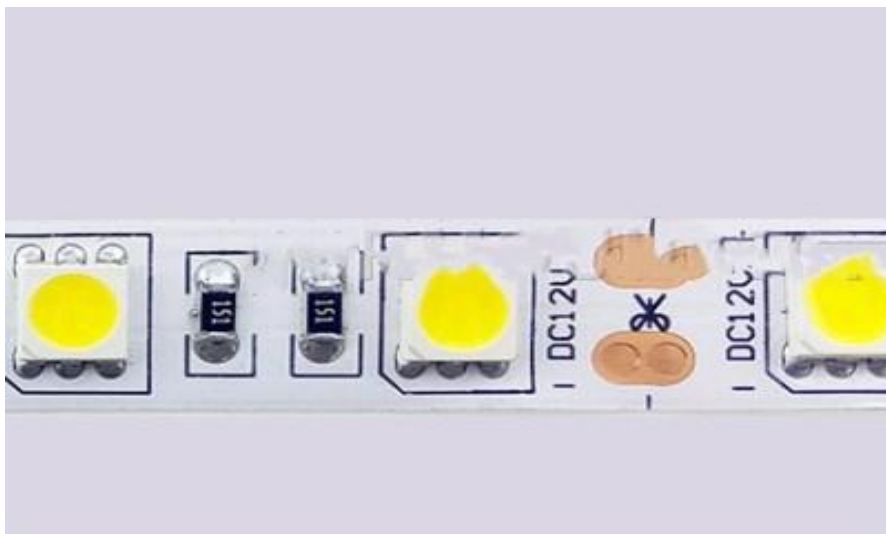

Our SMD LED use copper base and gold wire which provide good heat dispersion, long life span and low Luminous Decay. All our LEDs can meet LM80 test standard, 70% at 36000 hours.

High Quality Double Layers PCB:

Our flexible PCB are all high quality double layers PCB, at least 2 ounces, or 3 ounces in particular models. So there is low voltage drop and good heat dispersion too.

We can add constant current IC on the flexible PCB so the customer can connect led strip for 15 meters long with only one power supply.

More details on the led strips structure

Chip

CRI>80, simulate the nature light, revert the real color of the object itself.

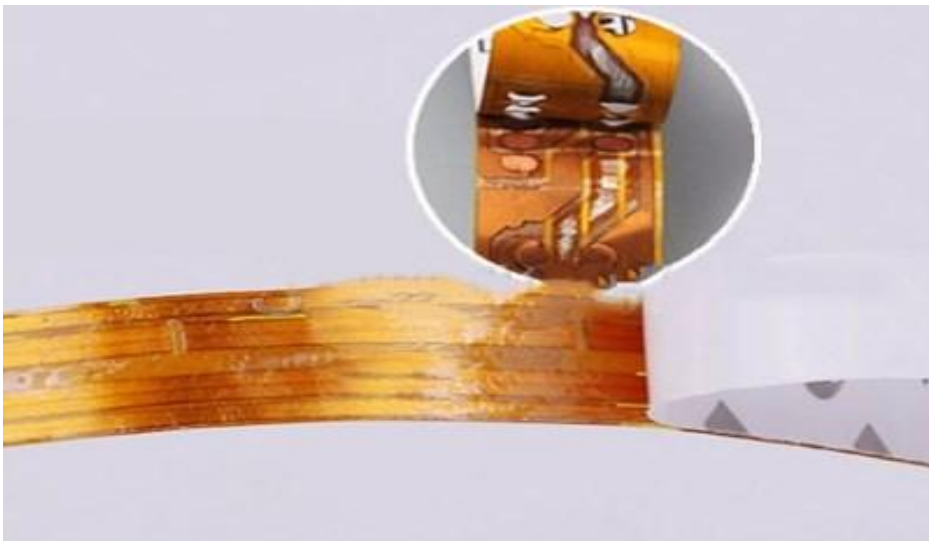

Cutting-Length

DIY cutting. It could be cut in 5cm or base on the datasheet to avoid or decrease the waste when you don't need to use the whole reel.

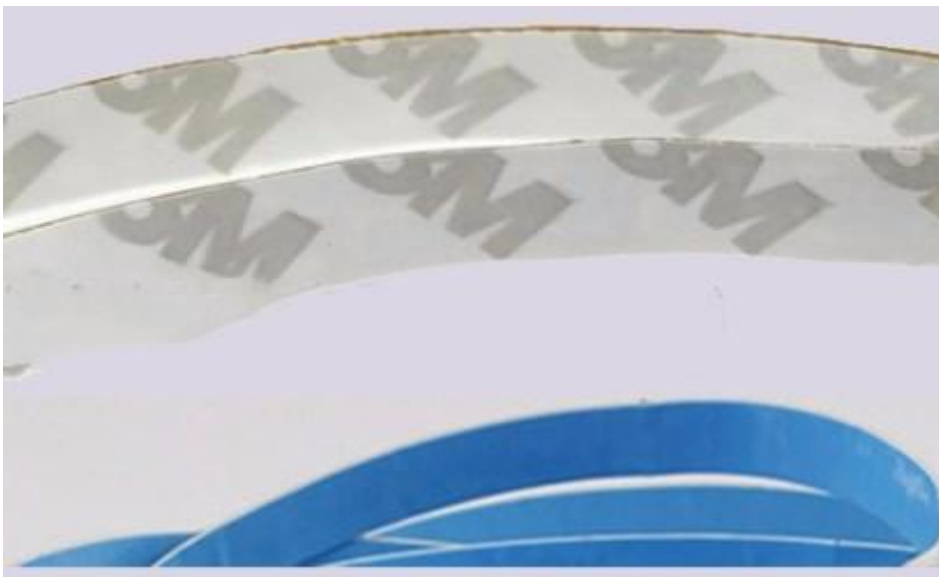

Upgrade Chip

ZHIDING led strip adopt the chip with the lifespan 50000 hours. Each chip with golden wire to prolong the lifespan and make the brightness more higher

Pure copper-double circuit board

Adopt the double 100% copper flexible circuit board. The excellent heat-distribution and conductive-performance ensure the long lifespan of the led strip

3M tape on the back

Adopt the super thin 3M double sided adhesive tape with strong adhesion. Easy to use, beautiful surface look with the thin tape

Thermal conductive

Adhesive back, peel & stock

Payment way and Shipping Items:

1. Payment terms: 100% T/T before production for small order。 For orders with a large amount, accept batch payment and pay off before shipment.
2. Delivery time: 14-20 days after payment, according to the quantity.

3. Samples for quality reference are available.
4. Shipping port: SHENZHEN
5. Tracking number will be sent to you once when we ship out the goods.
6. Discount are negotiable according to quantity.

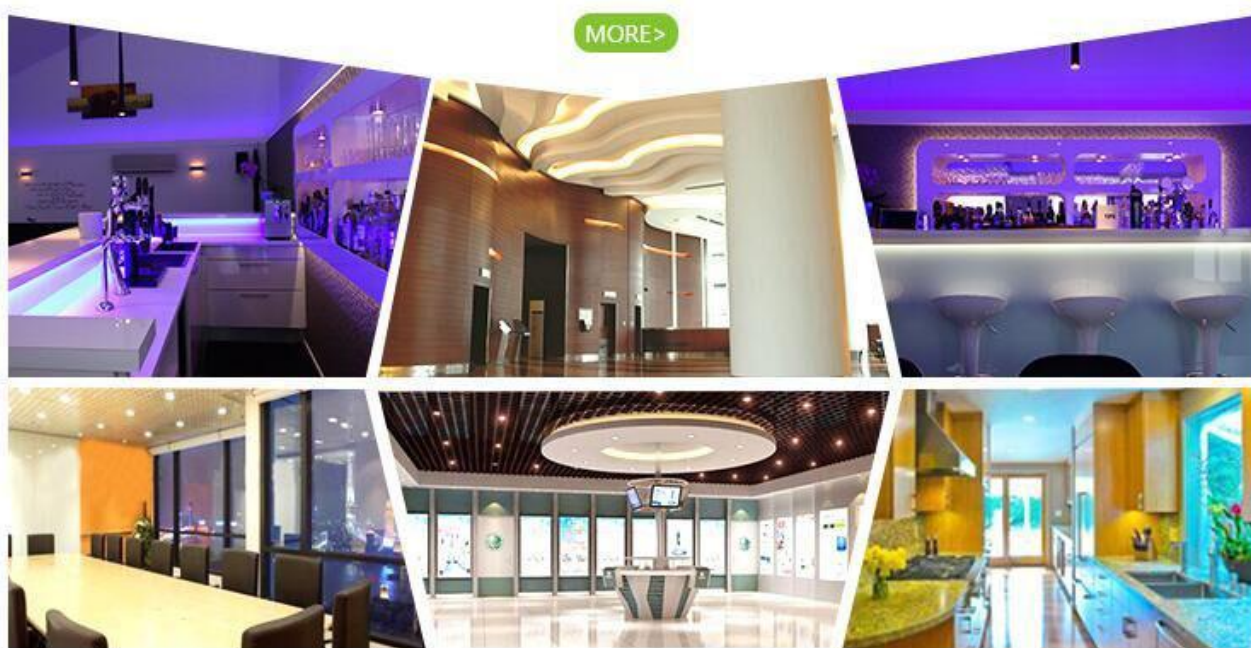

We choose DHL, Fedex, UPS or TNT according to customers requirements;
By air or by sea is also ok.

SHIPPING

Application

- 1.Cove lighting.
- 2.Architectural light for canopy, corridor, window, archway.
- 3.Backlight for edge lighting for signage.
- 4.DIY lights for home use.
- 5.Path and contour marking.
- 6.Decorative lights for holiday, event, show exhibition.

Our Advantages

1. Less time and money spent on sourcing by communicating with our experienced sale engineer.
2. Ensure only buy what you really need.
3. Choosing what you need from fullest led strip & relating accessories ranges supplier.
4. Accept OEM with lower quantity.

Dongguan Zhiding Electronics Technology Co., Ltd is a professional manufacturer of led and led related products. We are glad to receive your inquiry!
